

FOR IMMEDIATE RELEASE

Teelie Turner releases a magical new book about hope and faith.

Join Esperanza the Hope and Faith Fairy as she helps a family whose mother has been diagnosed with breast cancer.

Breast cancer is a serious subject, and it can be difficult for anyone to deal with. Teelie Turner wanted to release a book that used fairy magic to help bring some light to this illness. She does it in such a magical way that despite the subject matter, the reader is left feeling lighter.

From the first page to the last, the words and illustrations in *Esperanza the Hope and Faith Fairy* will fill your heart with contentment. The text from the book jacket reads: Meet Esperanza the Hope and Faith Fairy as she goes on a magical mission to help a human family – the Suttons. Carmen Sutton has breast cancer, and it is Esperanza's role to be there for the family and to help them to deal with the news and the fear that they are feeling. She helps them find beauty and hope in their lives despite the struggles that they are undergoing.

In this beautifully crafted story, explore how Teelie Turner uses the magic of fairies and fairy gardening to shine new light on the subject of breast cancer. Teelie will also be donating a percentage of the profits from the sale of Esperanza the Hope and Faith Fairy to help fund breast cancer research.

Teelie Turner's goal in recording the many events in her magical world of fairies is to use them as an easy-to-accept tool for teaching life lessons. Adults enjoy reading the stories and sharing them with their children. Esperanza the Hope and Faith Fairy is an excellent choice for multi-generational reading.

The author takes her appreciation of fairies a step further with her hobby, creating miniature fairy gardens. She began her fairy garden work in 2014 and offers details on her website, <https://www.teeliesfairygarden.com/>. Her other magical website is <http://tommytinkerstore.com/>. Both websites are treasures when it comes to adventures in Fairy Land.
