

INTRODUCTION

The Wee Folk in the Magical Kingdom know how serious the subject of breast cancer is, and they wanted to create a magical story that could help bring hope and faith to anyone who is battling this illness. That is why they created Esperanza the Hope and Faith Fairy. In the following pages, you'll get to meet her and the Sutton Family. If you or someone you know is battling this illness, know that our thoughts and prayers are with you. We hope that you enjoy this story and that it can make your struggle a little bit easier by enjoying the beauty surrounded by Esperanza's actions despite everything that the Sutton Family is going through. A percentage of the sale of each book will go towards breast cancer research in hopes that someday breast cancer can be a thing of the past.
